EXPLANATORY NOTES

This note is meant to ensure a better understanding of official student progress as recorded on documents issued in French.

Symbols used in this transcript

Credit

Numerical value on the work that student must complete to attain specific course objectives.

Credits earned

"Credits earned" (crédits réussis) is the total number of credits earned towards fulfillment of programme requirements. It includes credits for successfully completed courses and those granted by advanced standing (equivalence). It excludes credit for prerequisite course work (P) and for courses not taken towards the degree (H).

Grading System as of Fall 1992

A, B, C, and D.

Grading System as of Fall 1992

Failed Course

A student who does not meet course requirements receives the letter "F" as the grade for that course. Credits for that course do not appear on the transcript.

Credit from another programme within the University

The words "Activité suivie dans le cadre ... " indicate that the activity has been completed while completing requirements for another programme. Credit for this activity has been assigned to the student's current programme.

Transfer Credits

The words "Crédits intégrés au programme" indicate that the student has met certain programme requirements prior to admission.

Legend

ABS : Absence

EXE : Advanced standing

N.A. : Not applicable

Cumulative Grade Point Average

The cumulative grade point average (CGPA) is calculated as follows:

\[ M = \frac{\sum P x C}{\sum C} \]

Calculating the CGPA enrolled prior to September 1992

A new grading system was introduced in September 1992 (see grading system above). In accordance with policies accompanying the change, the CGPA of students who began their programme before September 1992 is calculated as follows:

\[ M = \left\{ \left\{ \frac{\sum P x C}{\sum C} \right\} \times \frac{4.3}{4.0} + \right\} \sum P x C \text{ calculated after } \frac{September 1992}{4.0} \]

Security Features

This transcript has been printed on paper with the following features:

- A chain pattern watermark should appear when the transcript is held up to a light source.
- The background is printed blue.
- The words “Université du Québec à Montréal” are printed as a microline 7/8th inch below the top edge.
- The word “COPIE” appears when the document is photocopied.
- The paper will become discoloured where chemicals have been used to alter information.
- The paper contains fluorescent fibres that are visible only under an ultraviolet light source.
- Grey vertical lines are printed on the back of the transcript.
